CO₂
measure
reduce
contribute

As a manufacturer of toys, we have a special responsibility towards our children and future generations.

Our climate protection strategy is based on the calculation of our corporate carbon footprint,

which is updated annually in collaboration with Climate Partner. We derive our reduction targets from this and try to save emissions or, at best, avoid them completely. The unavoidable remaining emissions are offset by participating in international, certified climate protection projects.

Made in Germany in perfect quality and high-grade processed. Short transport routes without high freight costs, fast and punctual delivery courteous service distinguishes us. Take us at our word!

PUSTEFIX is certified soap bubble fun with the highest play value, for stimulating the creativity of young and old at any age.

The certification of our production according to DIN EN ISO 9001:2015 guarantees consistent highest quality and safe playing fun at any time.

PUSTEFIX produces with environmentally friendly electricity from regenerative energy sources. The environmental management system of PUSTEFIX has been certified according to DIN EN ISO 14001:2015 for many years.

Did you know...? The PUSTEFIX classic is now also available made of innovative bio-plastic. Customized with your promotional label using 100% cellulose-free stone paper.

You can find our climate-neutral products on pages 7 to 11. Climate neutrality by calculating, reducing and offsetting CO₂ emissions. Our ID number and tracking URL www.climate-partner.com/18377-2203-1001 tell you everything you need to know about the climate protection project we support to offset the CO₂ emissions of these products.
